

PneuWalker™

MOBILITY TRAINER

The PneuWalker Mobility Trainer is the latest innovation in mobility technology from Pneumex. It offers freedom from the fear of falling for both the patient and the therapist. On the PneuWalker the patient can experience natural movement while working vertically on proper gait patterns.

Patent Pending

EXTRAORDINARY VERSATILITY

- User-friendly, analog control allows for precise unweighting.
- Height adjustable from 3' 6" to 6' 6".
- Width adjustable to go through doorways or over treadmills.
- Unweights unilaterally to address hemiplegic conditions.
- Onboard pneumatic compressor with rechargeable battery that runs up to 12 hours on a single charge.
- Adjustable handlebars swing out of the way for easy access and patient transfer.
- Allows a solo clinician to lift and transfer patients.
- Patented 3-in-1 Abilities Vest with adjustability for posture and gait.

A solo clinician can safely lift, transfer and train their patient over many types of surfaces.

Key Benefits

- Abilities patients
- Bariatric patients

PneuWalker Maximum lift 300 pounds
Pneumex recommends a maximum patient weight 500 pounds

"The PneuWalker, with the optional PneuGait Straps and Gait Assist Bands, allow me to treat my hemiplegia patient instead of spending all of my efforts stabilizing him." Kim, PT

"This is the best combination vest and unweighting system we have found for the long term care." Dusty, PTA

"The PneuWalker is the first system I have been on in 26 years that has not caused dysflexia Brian (Partial Quad)

Specifications

ACCESSORIES

Abilities 3-in-1 PneuVest

Light weight , easy to use. Securely holds and lifts patients. Multi-purpose vest three configurations

- 1.Upper and lower belts
- 2.Lower belt only
- 3.Upper belt only

PneuGait Assortment

One PneuGait Foot strap
One PneuGait Drop Foot Strap
One PneuGait Assist Foot Strap and Band

Safety Drop Stop

Limits the patient drop to 2" if they stumble and start to fall.

SPECIFICATIONS::

Rechargeable Power Supply

Overnight charge provides sufficient power to operate all day, up to 12 hours.

Lifting Bar

Uniquely designed to unweight more on one side than the other which can be beneficial when dealing with patients who are primarily affected on one side.

ADJUSTABLE FEATURES:

Adjustable Width

Easily expand PneuWalker inside width to fit over treadmills and balance equipment. An easy adjustment reduces width to go through virtually any doorway.

Adjustable Handlebars

Swing out bars allow for easy patient transfers from wheelchair, bed or commode.

Adjustable Height

Quickly adjust to accommodate patients from 3' 6" to 6' 6".
