

PneuTrack 50TM

UNWEIGHTING SYSTEM

220V – 30 Amp dedicated circuit
RS-232 Serial Port

Treadmill shown with PneuGait Unweighting Header

**PneuTrack Systems let you train at 360°
50 k (30 mph) Super Tough -Super Strong
High End Athletic Training**

PneuTrack N50 with PneuGait unweighting Header

"The PneuTrack has done great things for me. My core lateral and overall strength has increased dramatically. Without PneuTrack, I think I would be just another football player."

Isao Puailoa

"The PneuTrack Unweighting system has contributed greatly to our patient's rehabilitation and recovery. Many of them have decreased their gait deviations, have improved overall strength and endurance, and feel more confident in their abilities."

Stacy Cole, PT

The PneuTrack is a heavy duty treadmill and unweighting combination. Allowing clients to go full out (up to 30 mph on the PneuTrack 50) or safely one step at a time (less than 1 mph on the PneuTrack 08) **without fear of falling.**

SUPER TOUGH SYSTEMS

- All Steel Construction.
- Coating will not scratch, chip, crack or fade.
- Patented "Force Multiplier System" with 5 HP sealed AC motor.
