*Strokes

*Neurological

*Abilities

*Orthopedic

PneuTread Double

Evaluate and Correct Gait

PneuVest Abilities

PneuGait Foot Strap

Corrects gait

PneuWalker

Gait and Mobility

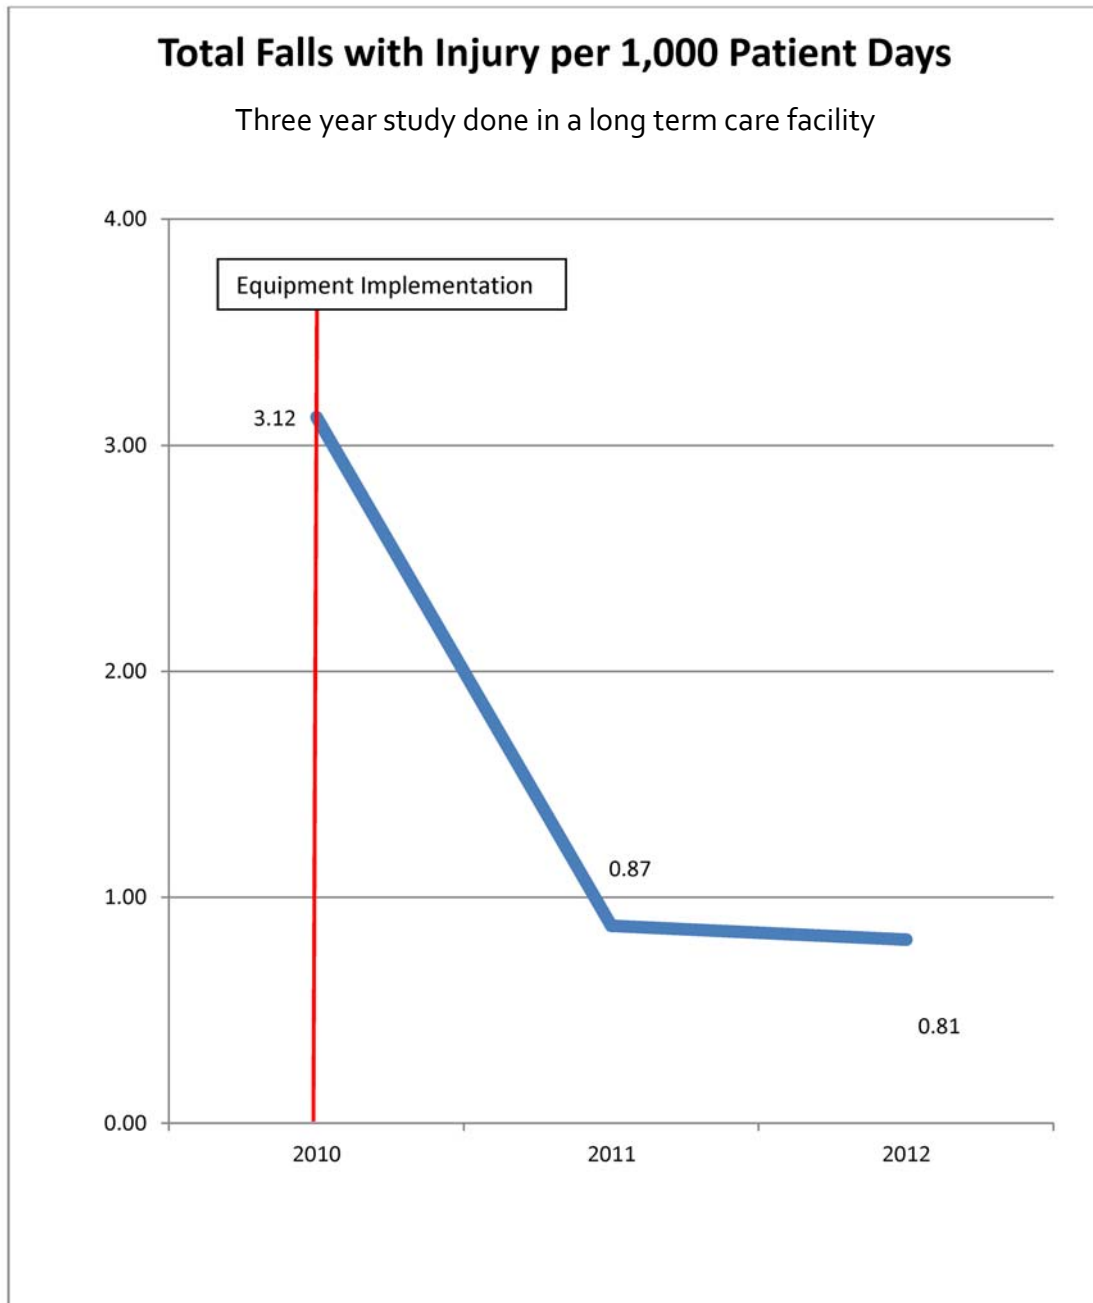

PneuVibe Pro

Whole Body Vibration

Genuine Pneumex Equipment

Fall Reduction Study

This study is based on a two year study done by the Legends Nursing Home group out of San Antonio, TX.

Their historical data over the previous 3 years on over 4,000 patients showed they were **averaging 3.12 falls** with injury per 1000 patient days.

Over a 2 year period after implementing the Pneumex Gait & Balance program they were **averaging .87 to .81 falls** per 1000 patient days .

Their costing data shows each fall with injury costs them over \$3000.00 per incident.
