- Changes Dynamic-Firing Patterns

### Three styles:

**1-Standard- PneuGait Foot Strap** - for correcting pronation, supination, external / internal rotation

**2-Rehab- PneuGait Drop Foot Strap**- for correcting drop foot

**3-Gait Assist**-for band assistance with forward movement

These straps are a simple and highly effective tool for correcting pronation, supination, and drop foot. Designed for clinical and home use, the PneuGait Foot Straps are the core of the comprehensive gait correction program.

"I had the PneuGait Foot Straps protocol performed for an old lateral knee injury. After walking for 2-3 minutes, I felt like I was walking on clouds. It's fast, easy and very effective. I can't wait to become the "Knee Doc" in my town!"

Dr. Mike Hurst, DC

"The PneuGait Foot Straps took my pain away within minutes and I don't need knee surgery now. It's a miracle!"

Lois
