## Key Benefits

- ◆ Orthopedic patients
- ◆ Strokes
- ◆ Back problems
- ◆ Gait training
- ◆ Cardiovascular
- ◆ Respiratory ailments
- ◆ Neurological patients
- ◆ Safety

### Analog Control Panel

Easy to read, easy to use analog control allows precise unweighting from 0 to 300 lbs. in 1 lb. increments. Features balance and exercise modes in familiar dial format.

All PneuWeight systems require a compressor to operate.

"The PneuLift is the most versatile piece of equipment I have. I have used it on a patient with AKA amputation, for pre and post prosthetic training, on a balance patient on our five foot force plate and patients with various gait challenges."

Jonny Galver MPT
